

Your Easy Computing Journey

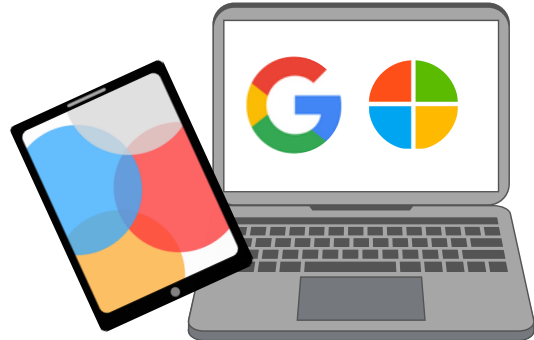

STUDENT-LED, TEACHER SUPPORTED, LEARNING PORTALS FOR DIGITAL SKILLS

ENSURE EVERYONE KNOWS THE ESSENTIALS

Device Essentials

Learn to use Chromebooks/iPads/laptops in just 3 short lessons with our **student learning portal**:

- Search safely, log in/log out of apps
- Scroll, select and navigate the cursor, 'right-click'
- Use the camera, take screenshots
- Save/retrieve files, and more 'Essentials'

Computing Essentials

Start integrating Google, Microsoft and iPad core apps with your **core subjects**:

- 6 week student-led courses
- Classroom-focused use of core apps
- Differentiated by year group
- Staff are fully supported

ENJOY OUTSTANDING COMPUTING

Full Computing Curriculum Plan

Teacher portals with planning, training & assessment ✓

5x courses per year group on the **student portal** ✓

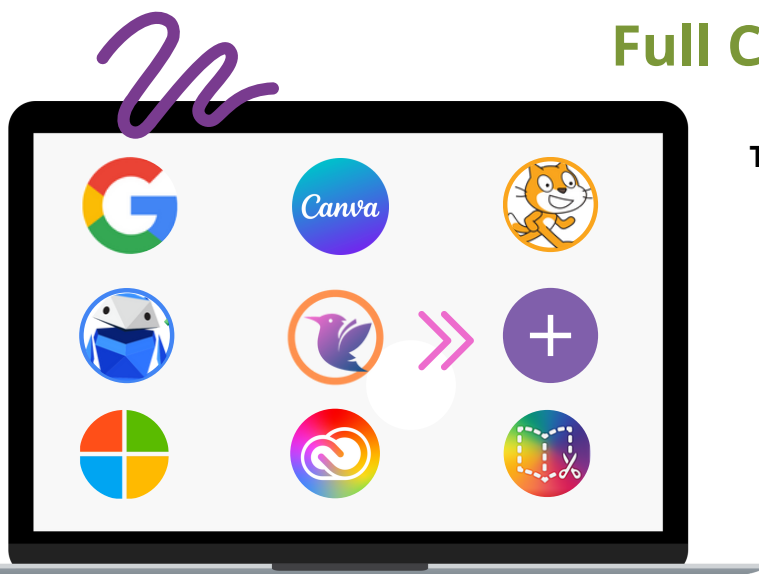

Reduces workload and fits with busy timetables ✓

Google Workspace & Microsoft 365 staff training ✓

Online safety programme ✓

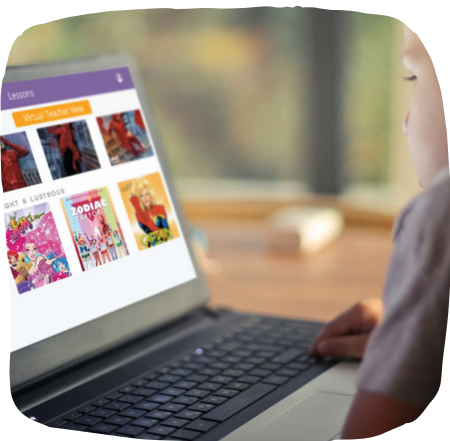

Community rewards for students and staff ✓

Differentiated content with staff and student orientations!

Success Story from an 'Outstanding' School

Hounslow Heath Primary School (London)

'Ahead of the game'

We have had peer challenge people coming in and they've just talked about how amazing [Olus] is. We always feel that we are ahead of other schools that we see. It's because of Olus, we seem to be ahead of the game.'

Laura Pavely, **STEM Lead**

'In our recent mock *Ofsted*, *Olus* was vital...'

...we showed the inspectors a clear structure of planning. They were particularly impressed with the assessment tool, where they could see the pupils assessment and the whole-school assessment.

Phil Harding, **Computing Lead**

'Couldn't be happier with the results!'

'As the coordinator, I need to know that our students are being challenged and our teachers are feeling confident with computing - Olus Education's student and teacher portals do both of these for us, I couldn't be happier with the results!'

Preti Malhotra, **Computing Coordinator**

'Much more independent'

'Olus is really great fun and easy to use - it's helped me be much more independent in my computing learning.'

Abdul, **Year 5 Student**
