Flex Slim

Product Overview

Introducing Flex Slim

The Flex Slim is a small form factor desktop PC with a built-in cable cover, designed for tidy, secure setups in classrooms and shared spaces.

Add the Flex Slim Stand to create a modular, serviceable All-in-One configuration using your existing monitor, keyboard, and mouse. It's a flexible solution that saves space, reduces clutter, and keeps upgrade paths open.

| Modular Design | Lockable Cable Cover | Optional Adjustable Stand | Front Facing Ports | Cable Management |

Dual Screen Support

The Flex Slim supports dual displays as standard, giving you more screen space to work with. Whether you're managing multiple applications, comparing documents, or running lessons and meetings, dual screen setups help improve efficiency, reduce window switching, and streamline your workflow.

Performance

The Flex Slim features Intel 14th Gen or AMD Ryzen 8000 Series processors for fast, efficient performance across everyday and demanding tasks. Add a low profile GPU to boost visuals or run specialist applications.

Fast Connectivity

The Flex Slim is available with ultrafast, secure Wi-Fi 6*, ideal for collaborative and high-density environments. For bulk imaging, rapid deployment or other data-heavy tasks, the integrated 1Gb LAN delivers the speed and reliability you need.

Wi-Fi 6 available as an optional upgrade.

Features

Reduce Clutter

Cable Management Built In

A built-in routing channel within the chassis helps guide cables cleanly out the side of the device, reducing clutter and keeping your workspace tidy.

AIO Style, Minimal Footprint

When paired with a Flex Stand and monitor, the Flex Slim setup has a similar footprint to a traditional all-in-one PC, saving space without locking you into fixed hardware.
Reduce Cable Clutter

The Flex Slim Stand comes with a handy Y cable, letting you power both the PC and monitor from a single socket. It helps reduce cable clutter and makes setup quicker and cleaner.

Security

Firmware TPM 2.0

Flex Slim includes firmware-based TPM 2.0 support, helping protect sensitive data with hardware-backed encryption and secure key storage. It enables features like Windows BitLocker and secure boot, supporting modern security standards.

Security Screws Included

Flex Slim comes with star-head security screws as standard, adding an extra layer of protection for cable covers, brackets and mounts. It's a simple but effective way to help prevent tampering in shared or public environments.

Robust Design

From its built in cable cover and integrated cable management to included star-head security screws and firmware TPM 2.0 support, every detail is designed with durability and protection in mind. It's a compact PC that's secure, stable, and ready for anything.

All-in-One Configuration

With the optional Flex Slim Stand, this desktop PC can be transformed into a modular All-in-One setup using your existing monitor. Designed for secure, clutter-free, and ergonomic use, the Flex Slim features a lockable cable cover, front-facing ports for easy access, and built-in height adjustment. Smart cable management, a compact footprint, and the ability to power both PC and display from a single socket help keep desks tidy and free up space.

Just Add a Monitor

The Flex Slim combines with your existing monitor using the optional Flex Slim Stand, creating a space-saving All-in-One setup that is easy to deploy, upgrade, and service.

Secure and Tidy

A lockable rear cover keeps ports and cables protected, helping to prevent tampering and maintain a clean, professional appearance in shared environments.

Easy Access, Ergonomic Front I/O

Front-facing USB ports make everyday tasks simpler by giving users quick access to plug in devices like USB drives, headphones, or keyboards without reaching behind the system.

Adjusts to Fit

The Flex Slim Stand includes height adjustment to help users position their screen at a comfortable viewing level, improving posture and reducing strain over longer sessions.

Hardware Services

Our hardware services are built to take the pressure off your IT team. From BIOS configuration and custom imaging to on-site setup and responsible recycling, we handle every step to get your devices ready for action. Whether you're rolling out a handful of systems or hundreds, we'll make sure everything arrives exactly how you need it, fully configured, clearly labelled, and deployment ready. Just tell us how you want it done and we'll sort the rest.

BIOS Configuration

Get your systems boot-ready with customised BIOS settings. We can apply admin passwords, set boot orders, disable ports, and even brand your BIOS splash screen with your logo.

Custom Imaging

Your OS, your way. We'll apply your custom image (including apps, settings, and drivers) to every device. Want it stored for future orders? We've got you covered.

Autopilot Enrolment

Plug and play with Microsoft Intune. We'll pre-enrol your devices in Autopilot, making setup a breeze for your IT team.

MAC & Serial Provisioning

Need to assign network profiles or register assets before delivery? We'll provide device MAC addresses and serial numbers ahead of time so you can prep in parallel.

Asset Tagging

From barcodes to custom tags, we'll affix your identifiers straight to the device exactly where you want them.

Decommissioning

Decommission your existing hardware ready for redeployment or recycling.

Deliver to Desk

Skip the setup queue. Our engineers will unbox, cable, and configure your systems right at the user's desk, so everything's ready to go from the moment they sit down.

Equipment Recycling

Out with the old, responsibly. We collect and recycle your old kit in full compliance with WEEE regulations, ensuring nothing goes to waste unnecessarily.

Packaging Takeback

Once your new kit's installed, we'll remove and recycle all packaging waste. Clean, tidy, and eco-friendly.

Custom Branding

Add your logo, crest, motto, or colours. Make your new Flex Slim yours. Durable, high-quality printed vinyl crafted by our in-house design team and caringly applied before shipping.

We say be proud, reinforce your brand, represent your school colours, or add a little je ne sais quoi.

- Full-colour printing
- Large, eye-catching branding
- Durable, long-lasting vinyl

Warranty & Performance

Warranty

Experience peace of mind with our comprehensive warranty options. **We offer up to 5 years total coverage**, including an Extended Service Plan designed to minimise downtime.

Return to Base

Included

You handle the shipping to us, we'll take care of the repair and send it back.

Standard Service Plan

Upgrade

We collect, repair, and return your device. Parts and labour included.

Extended Service Plan

Upgrade

Next business day support with an engineer visit, advanced parts dispatch, or full device replacement for hardware issues.

PCMARK10

Performance

VeryPC measure the performance of our products using PCMark 10, a world renowned benchmarking tool that can be used to compare real-world performance between computer hardware.

Essentials

Everyday use, including web browsing, video conferencing and app startups
